

# SECRETS TO MANAGING CHANGE

## PROFESSIONAL DEVELOPMENT COURSE

**AuPI**  
AUSTRALIAN  
POLYTECHNIC  
INSTITUTE.

## COURSE OVERVIEW

Whether we love change and take every opportunity to make it or hate change and take every opportunity to avoid it, change is happening. The question is - are we the victim of change, or are we in control of the change we want?

This course will give you insights into who you must be to be a successful change leader, what strategies might be appropriate to meet your organisation's needs and the tools to use when designing a change initiative.

This course is held in a virtual classroom in four weekly sessions, which is live and interactive. You will be encouraged to ask questions,

share stories, reflect on how the content relates to your own experiences, and engage with other participants during activities.

**Fees: Au\$500**
